### Walkie Pallet Jack

Walkie pallet jack is powered by the battery to walk and carry the cargo with electric power, for the purpose of short distance transportation. It is widely used in workshops, warehouses, docks, stations, freight yards, etc. and is an ideal tool to improve efficiency and reduce labor intensity.

### 1.Walkie Pallet Jack

Walkie pallet jack is powered by the battery to walk and carry the cargo with electric power, for the purpose of short distance transportation. It is widely used in workshops, warehouses, docks, stations, freight yards, etc. and is an ideal tool to improve efficiency and reduce labor intensity.

The Walkie pallet jack is engineered and built to endure constant jolts to the undercarriage, thousands of pallet entries and exits, abrupt direction changes and harsh environments.

Walkie pallet jack features heavy-gauge steel throughout the chassis, side panels and power unit cover.

Walkie pallet jack has a powerful AC motor, cast iron gear box, helical gearing and taper bearings mounting it in place. A cast aluminum handle with structural webbing provides maximum strength and lasting durability while operating in tight spaces.

### 3. Walkie Pallet Jack Feature And Application

Walkie Pallet Jack have an electric motor that both propels the pallet jacks and raises and lowers their forks. This reduces the physical effort it takes to operate them and move them over long distances, and it allows them to travel on inclined surfaces such as sloped floors or ramps. Also known as electric pallet jacks and walkie pallet jacks, powered pallet jacks allow loads to be loaded, lifted, and moved over long distances more quickly than manual-lift/powered-drive pallet jacks. The motor is powered by a rechargeable battery.

1. Smart body design, high load capacity;

2. Up and down, motor driven Cost-effective Convenient and labor-saving during operation;

3. Multi-function handle is comfortable and safe

4. Standard battery, ready to use with charging, convenient charging and maintenance-free;

5. High-performance accessories, Thickened load-carrying fork

### **5. Product Qualification**

Shanghai Yiyong Crane Machinery Company is the hoist manufacturer Institute certified. This means we are one of the industry's leading suppliers of hoist equipment. We are reliable and deliver exceptional value.

Shanghai Yiyong Crane machinery Company provide various Lever block 1.5 Ton it is the most popular in Asia ,America and Canada ,It is beautiful ,strong and durable.we promise the electric hoist 2ton warranty is 2 years.and the hand cable is warter proofed,and we really welcome the treaders around the world join in us .

### **6. Deliver,Shipping And Serving**

Ready made product, it can be sent out within 3-7 DAYS.

Pre-sale Services : we have professional sales team as your guide to choose correct model and solve your problems timely, cooperated with engineering team、 technical department、 production department、 administration department、 accountant department、 document department, working time is 7x24hours.

Sale services: one to one sales would in charge of all matters about your purchase order and would monitor shipping all the way till you got material, including proving documents , communicate with forwarder etc. Cooperated with production department、 technical department、 engineer department technical department、 packaging department、 logistic department to deal with related communications ensure your order would be proceed without any mistakes.

After-sale services : after-sales team will deal with all complaint from customers such as packaging ,quality ,shipping ,etc. We will surely exchange goods or make up lost if finally verify mistakes caused by our side, a promise is a promise !

## 7. FAQ

Q1: How long is the Warranty for this walkie pallet jack?

A1: We provides 12 months warranty

Q2: How about the delivery time?

A2: Usually walkie pallet truck producing time is 7-10days after we receive the advanced payment. For some standard products, we may have stock and could delivery immediately.

Q3: How about the continuous working time for the walkie pallet jack? And How long time to charge the battery full ?

A3: battery continuous working time is around 3-6 hours (working time depend on battery volume).It needs usually 8 - 12 hours to charge the battery, charger is automatic, after the battery is full, it will stop working automatically.

Q4: Can you provide customized products? OEM products or ODM products?
